Attorney Docket No.: 05725.1339-00000

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application:

Claims 1-79 (Cancelled)

 (Currently Amended) A fluid foundation composition in the form of a water-in-oil emulsion, comprising;

at least one oil, at least one volatile hydrocarbon-based oil;

at least one first volatile silicone oil with a flash point of greater than or equal to 55 °C and less than or equal to 80 °C;

at least one second volatile silicone oil with a flash point of greater than or equal to 80 °C and less than or equal to 95 °C;

an aqueous phase containing water and at least 6% by weight of water-miscible polyol, relative to the total weight of the composition, and

at least 8% by weight of dyestuff,

wherein the water, the polyol, and the oil are present in an amount such that the weight ratio of (water + polyol) to oil is greater than or equal to 0.8.

 (Withdrawn - Currently Amended) A fluid foundation composition in the form of a water-in-oil emulsion, comprising;

Attorney Docket No.: 05725.1339-00000

at least one oil, at least one volatile hydrocarbon-based oil;

at least one first volatile silicone oil with a flash point of greater than or equal to 55 °C and less than or equal to 80 °C:

at least one second volatile silicone oil with a flash point of greater than or equal to 80 °C and less than or equal to 95 °C:

an aqueous phase containing water and at least 5% by weight of water-miscible polyol, relative to the total weight of the composition, and

poly methyl methacrylate particles,

wherein the polyol and the oil are present in an amount such that the weight ratio of (water + polyol) to oil is greater than or equal to 0.8.

 (Currently Amended) A fluid foundation composition in the form of a water-in-oil emulsion, comprising;

at least one oil, at least one volatile hydrocarbon-based oil;

at least one first volatile silicone oil with a flash point of greater than or equal to 55 °C and less than or equal to 80 °C;

at least one second volatile silicone oil with a flash point of greater than or equal to 80 °C and less than or equal to 95 °C;

Attorney Docket No.: 05725.1339-00000

an aqueous phase containing water and at least two water-miscible polyols, wherein the total content of the polyols is greater than or equal to 5% by weight relative to the total weight of the composition, and the polyols and the oil are present in an amount such that the weight ratio of (water + polyols) to oil is greater than or equal to 0.8.

83. (Withdrawn - Currently Amended) A fluid foundation composition in the form of a water-in-oil emulsion, comprising

at least one oil, at least one volatile hydrocarbon-based oil;

at least one first volatile silicone oil with a flash point of greater than or equal to 55 °C and less than or equal to 80 °C;

at least one second volatile silicone oil with a flash point of greater than or equal to 80 °C and less than or equal to 95 °C;

an aqueous phase containing water and at least two water-miscible polyols, and poly methyl methacrylate particles,

where the water is the predominant component of the emulsion, and the composition has a viscosity ranging from 0.25 Pa's to 0.6 Pa's.

84-85. (Canceled)

Attorney Docket No.: 05725.1339-00000

86. (Currently Amended) The composition of claim [[85]] 80, wherein the at least one

volatile hydrocarbon-based oil is chosen from hydrocarbon-based oils with a flash point

ranging from 40°C to 102°C.

87. (Currently Amended) The composition of claim [[85]] 80, wherein the at least one

volatile hydrocarbon-based oil is chosen from hydrocarbon-based oils with a flash point

ranging from 40°C to 50°C.

88. (Currently Amended) The composition of claim [[85]] 80, wherein the at least one

volatile hydrocarbon-based oil is chosen from volatile hydrocarbon-based oils containing

from 8 to 16 carbon atoms, and mixtures thereof.

89. (Currently Amended) The composition of claim [[85]] 80, wherein the at least one

volatile hydrocarbon-based oil is chosen from branched C8-C16 alkanes, branched C8-

C₁₆ esters, and mixtures thereof.

90. (Currently Amended) The composition of claim [[85]] 80, wherein the at least one

volatile hydrocarbon-based oil is chosen from isododecane, isodecane and

isohexadecane.

91. (Previously Presented) The composition of claim 90, wherein the at least one

volatile hydrocarbon-based oil is isododecane.

-5-

Attorney Docket No.: 05725.1339-00000

92. (Currently Amended) The composition of claim [[85]] <u>80</u>, wherein the at least one

volatile hydrocarbon-based oil is present in the composition in an amount ranging from

5% to 35% by weight, relative to the total weight of the composition.

93. (Previously Presented) The composition of claim 92, wherein the at least one

volatile hydrocarbon-based oil is present in the composition in an amount ranging from

8% to 15% by weight, relative to the total weight of the composition.

94-96. (Canceled)

97. (Currently Amended) The composition of claim [[94]] 80, wherein the at least one

first and/or second volatile silicone oils [[is]] are chosen from linear or cyclic silicone oils

containing from 2 to 7 silicon atoms, wherein these silicones optionally comprise alkyl or

alkoxy groups containing from 1 to 10 carbon atoms.

98. (Currently Amended) The composition of claim [[94]] 97, wherein the at least one

first and/or second volatile silicone oils [[is]] are chosen from

octamethylcyclotetrasiloxane, decamethylcyclopentasiloxane, dodecamethyl-

cyclohexasiloxane, heptamethylhexyltrisiloxane, heptamethyloctyltrisiloxane,

hexamethyldisiloxane, octamethyltrisiloxane, decamethyltetrasiloxane,

dodecamethylpentasiloxane, and mixtures thereof.

-6-

Attorney Docket No.: 05725.1339-00000

99. (Currently Amended) The composition of claim [[94]] <u>80</u>, wherein the at least one volatile silicone oil is present in the composition in an amount ranging from 5% to 35% by weight, relative to the total weight of the composition.

100. (Currently Amended) The composition of claim [[99]] <u>80</u>, wherein at least one volatile silicone oil is present in the composition in an amount ranging from 15% to 25% by weight, relative to the total weight of the composition.

101-103. (Canceled)

104. (Currently Amended) The composition of claim [[102]] 80, wherein the second first volatile silicone oil has a flash point ranging from 67 °C to 85 °C.

105. (Currently Amended) The composition of claim [[102]] 80, wherein the second first volatile silicone oil is chosen from decamethylcyclopentasiloxane and decamethyltetrasiloxane.

106. (Currently Amended) The composition of claim [[102]] <u>90</u>, wherein the third second volatile silicone oil is dodecamethylcyclohexasiloxane.

107. (Currently Amended) The composition of claim [[102]] <u>80</u>, wherein the third second volatile silicone oil has a flash point ranging from 87 °C to 95 °C.

Attorney Docket No.: 05725.1339-00000

108. (Currently Amended) The composition of claim [[102]] <u>80</u>, wherein the secend <u>first</u> volatile silicone oil is present in the composition in an amount ranging from 0.1% to 35% by weight, relative to the total weight of the composition.

- 109. (Currently Amended) The composition of claim 108, wherein the second <u>first</u> volatile silicone oil is present in the composition in an amount ranging from 8% to 16% by weight, relative to the total weight of the composition.
- 110. (Currently Amended) The composition of claim [[102]] 80, wherein the third second volatile silicone oil is present in the composition in an amount ranging from 0.1% to 35% by weight, relative to the total weight of the composition.
- 111. (Currently Amended) The composition of claim 110, wherein the third second volatile silicone oil is present in the composition in an amount ranging from 4% to 15% by weight, relative to the total weight of the composition.
- 112. (Previously Presented) The composition of claim 80, comprising a mixture of decamethylcyclopentasiloxane, dodecamethylcyclohexasiloxane and isododecane.
- 113. (Previously Presented) The composition of claim 112, wherein, in the mixture, the content, expressed on a weight basis relative to the total weight of the composition, is such that: isododecane content > decamethylcyclopentasiloxane content > dodecamethylcyclohexasiloxane content.

Attorney Docket No.: 05725.1339-00000

114. (Currently Amended) The composition of claim [[84]] <u>80</u>, wherein the composition contains isodecane as [[a]] <u>the at least one</u> volatile <u>hydrocarbon-based</u> oil in a predominant amount based on weight relative to the total weight of the composition.

115. (Currently Amended) The composition of claim [[94]] 80, wherein the composition comprises decamethylcyclopentasiloxane in a predominant amount, based on weight relative to the content of any other volatile silicone oil that may be present in the composition.

- 116. (Currently Amended) The composition of claim [[84] 80, wherein the at least one volatile <u>hydrocarbon-based</u> oil is present in the composition in an amount ranging from 10% to 50% by weight, relative to the total weight of the composition.
- 117. (Currently Amended) The composition of claim 116, wherein the at least one volatile <u>hydrocarbon-based</u> oil is present in the composition in an amount ranging from 30% to 36% by weight, relative to the total weight of the composition.
- 118. (Previously Presented) The composition of claim 80, wherein the composition comprises at least one nonvolatile oil.

Attorney Docket No.: 05725.1339-00000

119. (Previously Presented) The composition of claim 118, wherein the at least one

nonvolatile oil is chosen from nonvolatile hydrocarbon-based oils, nonvolatile silicone

oils, and mixtures thereof.

120. (Previously Presented) The composition of claim 119, wherein the at least one

nonvolatile oil is present in an amount ranging from 0.1% to 12% by weight, relative to

the total weight of the composition.

121. (Previously Presented) The composition of claim 120, wherein the at least one

nonvolatile oil is present in an amount ranging from 1% to 5% by weight, relative to the

total weight of the composition.

122. (Previously Presented) The composition of claim 80, wherein the composition

comprises oils present in an amount ranging from 30% to 45% by weight, relative to the

total weight of the composition.

123. (Previously Presented) The composition of claim 122, wherein the composition

comprises oils present in amount ranging from 30% to 40% by weight, relative to the

total weight of the composition.

124. (Previously Presented) The composition of claim 80, wherein the composition

comprises from 15% to 35 % by weight of water, relative to the total weight of the

composition.

-10-

Attorney Docket No.: 05725.1339-00000

125. (Previously Presented) The composition of claim 124, wherein the composition comprises from 22% to 28% by weight of water, relative to the total weight of the

composition.

126. (Previously Presented) The composition of claim 80, wherein the water-misciple

polyol is chosen from polyols containing from 3 to 20 carbon atoms.

127. (Previously Presented) The composition of claim 80, wherein the water-miscible

polyol is chosen from polyols containing from 3 to 6 carbon atoms.

128. (Previously Presented) The composition of claim 80, wherein the water-miscible

polyol is chosen from glycerol, propylene glycol, butylene glycol, pentylene glycol.

hexylene glycol, dipropylene glycol, diethylene glycol, and mixtures thereof.

129. (Previously Presented) The composition of claim 80, wherein the water-miscible

polvol is present in the composition in an amount ranging from 6% to 20% by weight.

relative to the total weight of the composition.

130. (Previously Presented) The composition of claim 129, wherein the water-

miscible polvol is present in the composition in an amount ranging from 8% to 12% by

weight, relative to the total weight of the composition.

-11-

Attorney Docket No.: 05725.1339-00000

131. (Previously Presented) The composition of claim 80, wherein the composition comprises at least two water-miscible polyols.

132. (Previously Presented) The composition of claim 131, wherein the composition

comprises a first water-miscible polyol containing 3 carbon atoms and a second water-

miscible polyol containing from 4 to 20 carbon atoms.

133. (Previously Presented) The composition of claim 132, wherein the second water

miscible polvol comprises contains 4 to 6 carbon atoms.

134. (Previously Presented) The composition of claim 132, wherein the first water

miscible polyol is chosen from butylene glycol, pentylene glycol, hexylene glycol,

dipropylene glycol, diethylene glycol, and mixtures thereof.

135. (Previously Presented) The composition of claim 132, wherein the first polyol is

present in an amount greater than the total content of the second polyol.

136. (Previously Presented) The composition of claim 132, wherein the first polyol is

present in the composition in an amount ranging from 3% to 15% by weight, relative to

the total weight of the composition.

Attorney Docket No.: 05725.1339-00000

137. (Previously Presented) The composition of claim 136, wherein the first polyol is

present in the composition in an amount ranging from 5% to 8% by weight, relative to

the total weight of the composition.

138. (Previously Presented) The composition of claim 132, wherein the second polyol

is present in the composition in an amount ranging from 1% to 7% by weight, relative to

the total weight of the composition.

139. (Currently Amended) The composition of claim 138, wherein the second polyol is

present in the composition in an [[ameount]] amount ranging from 2% to 4% by weight.

relative to the total weight of the composition.

140. (Previously Presented) The composition of claim 80, wherein the aqueous phase

is present in the composition in an amount ranging from 20% to 50% by weight, relative

to the total weight of the composition.

141. (Currently Amended) The composition of claim 140, wherein the aqueous phase

is present in the composition [[composition]] in an amount ranging from 30% to 40% by

weight, relative to the total weight of the composition.

142. (Previously Presented) The composition of claim 80, wherein the weight ratio of

(water + polyol)/oil ranges from 0.8 to 1.2.

-13-

Attorney Docket No.: 05725,1339-00000

143. (Previously Presented) The composition of claim 142, wherein the weight ratio of (water + polyol)/oil ranges from 0.94 to 1.2.

- 144. (Previously Presented) The composition of claim 80, wherein the composition comprises a C8-C22 alkyl dimethicone copolyol.
- 145. (Previously Presented) The composition of claim 144, wherein the C8-C22 alkyl dimethicone copolyol is a compound of formula (I) below:

$$(CH_3)_3Si \longrightarrow O \longrightarrow \begin{bmatrix} CH_3 \\ Si \longrightarrow O \\ CH_2)_p \\ CH_3 \end{bmatrix} \circ \begin{bmatrix} CH_3 \\ Si \longrightarrow O \\ CH_2)_q \\ O \\ PE \end{bmatrix}_m = \begin{bmatrix} CH_3 \\ Si \longrightarrow O \\ CH_3 \end{bmatrix}_n (I)$$

wherein:

- PE represents $(-C_2H_4O)_x$ - $(C_3H_6O)_y$ -R, in which R is chosen from a hydrogen atom and an alkyl radical of 1 to 4 carbon atoms, x ranges from 0 to 100, y ranges from 0 to 80, x plus y cannot simultaneously be 0;
- -m ranges from 1 to 40;
- -n ranges from 10 to 200;
- -o ranges from 1 to 100;
- -p ranges from 7 to 21; and
- -q ranges 0 to 4.

Attorney Docket No.: 05725.1339-00000

146. (Previously Presented) The composition of claim 145, wherein:

-R is H;

-m ranges from 1 to 10;

-n ranges from 10 to 100:

-o ranges from 1 to 30;

-p equals 15; and

-q = 3.

147. (Previously Presented) The composition of claim 142, wherein the C8-C22 alkyl dimethicone copolyol is cetyl dimethicone copolyol.

148. (Previously Presented) The composition of claim 147, wherein the C8-C22 alkyl dimethicone copolyol is present in the composition in an amount ranging from 0.5 to 2% by weight, relative to the total weight of the composition.

149. (Previously Presented) The composition of claim 148, wherein the C8-C22 alkyl dimethicone copolyol is present in the composition in an amount rangingfrom 0.7 to1.5% by weight, relative to the total weight of the composition.

150. (Withdrawn) The composition of claim 80, wherein the composition comprises a dimethicone copolyol.

Attorney Docket No.: 05725.1339-00000

151. (Withdrawn) The composition of claim 150, wherein the dimethicone copolyol is a compound of formula (II) below:

in which:

-R₁, R₂ and R₃, independently of each other, are chosen from C_1 - C_6 alkyl radicals, or a radical -(CH₂)_x - (OCH₂CH₂)_y - (OCH₂CH₂CH₂)_z - OR₄, wherein at least one of R₁, R₂ or R₃ is not an alkyl radical;

- -R₄ is chosen from hydrogen, a C₁-C₃ alkyl radical or a C₂-C₄ acyl radical;
- -A and B are chosen from integers ranging from 0 to 200 and 0 to 50 respectively, with the proviso that A and B cannot both simultaneously equal 0;
- -x is an integer ranging from 1 to 6;
- -v is an integer ranging from 1 to 30; and
- z is an integer ranging from 0 to 5.
- 152. (Withdrawn) The composition of claim 151, wherein R₁ and R₃ are methyl radicals. x is an integer ranging from 2 to 6, and y is an integer ranging from 4 to 30.
- 153. (Withdrawn) The composition of claim 152, wherein R₄ is hydrogen.

Attorney Docket No.: 05725.1339-00000

154. (Withdrawn) The composition of claim 150, wherein the dimethicone copolyol is a compound of formula (III) below:

in which A is an integer ranging from 20 to 105, B is an integer ranging from 2 to 10 and y is an integer ranging from 10 to 20.

155. (Withdrawn) The composition of claim 150, wherein the dimethicone copolyol is a compound of formula (IV) below:

HO -
$$(CH_2CH_2O)_y$$
- $(CH_2)_3$ - $[(CH_3)_2SiO]_{A'}$ - $[(CH_3)_2Si]$ - $(CH_2)_3$ - $(OCH_2CH_2)_y$ - OH (IV)

in which A' and v are integers ranging from 10 to 20.

156. (Withdrawn) The composition of claim 150, wherein the dimethicone copolyol is present in the composition in an amount ranging from 2% to 10% by weight, relative to the total weight of the composition.

Attorney Docket No.: 05725.1339-00000

157. (Withdrawn) The composition of claim 156, wherein the dimethicone copolyol is present in the composition in an amount ranging from 5% to 7% by weight, relative to the total weight of the composition.

158. (Withdrawn) The composition of claim 81, wherein the composition further comprises a dvestuff.

159. (Withdrawn) The composition of claim 158, wherein the dyestuff is a pulverulent dyestuff.

160. (Withdrawn) The composition of claim 158, wherein the dyestuff is chosen from pigments, nacres, and mixtures thereof.

161. (Withdrawn) The composition of claim 160, wherein the pigments are chosen from iron oxide pigments and titanium dioxide pigments.

162. (Withdrawn) The composition of claim 159, wherein the pulverulent dyestuff is a coated hydrophobe.

163. (Withdrawn) The composition of claim 158, wherein the dyestuff is present in the composition in an amount ranging from 0.5% to 20% by weight, relative to the total weight of the composition.

Attorney Docket No.: 05725.1339-00000

164. (Withdrawn) The composition of claim 163, wherein the dyestuff is present in the composition in an amount ranging from 5% to 20% by weight, relative to the total weight of the composition.

165. (Withdrawn) The composition of claim 159, wherein the pulverulent dyestuff is present in the composition in an amount ranging from 8% to 20% by weight, relative to the total weight of the composition.

166. (Withdrawn) The composition of claim 165, wherein the pulverulent dyestuff is present in the composition in an amount ranging from 8% to 15% by weight, relative to the total weight of the composition.

167. (Previously Presented) The composition of claim 80, wherein the composition further comprises poly methylmethacrylate particles.

168. (Previously Presented) The composition of claim 167, wherein the poly methylmethacrylate particles are present in the composition in an amount ranging from 1% to 10% by weight, relative to the total weight of the composition.

169. (Previously Presented) The composition of claim 167, wherein the poly methylmethacrylate particles are present in the composition in an amount ranging from 2% to 6% by weight, relative to the total weight of the composition.

Attorney Docket No.: 05725.1339-00000

170. (Previously Presented) The composition of claim 167, wherein the dyestuffs are pulverulent dyestuffs and said pulverulent dyestuffs and said poly methyl methacrylate

particles, are present in amounts such that the weight ratio of pulverulent dyestuff to

poly methyl methacrylate particle ranges from 2.5 to 3.5.

171. (Previously Presented) The composition of claim 170, wherein the weight ratio of

pulverulent dyestuff to poly methyl methacrylate particle ranges from 3 to 3.5.

172. (Previously Presented) The composition of claim 167, wherein the composition

further comprises an additional filler other than the poly methyl methacrylate particles.

173. (Previously Presented) The composition of claim 172, wherein the additional

filler is present in the composition in an amount ranging from 0.1% to 5% by weight,

relative to the total weight of the composition.

174. (Previously Presented) The composition of claim 173, wherein the additional

filler is present in the composition in an amount ranging from 0.1% to 3% by weight.

relative to the total weight of the composition.

175. (Previously Presented) The composition of claim 80, wherein the composition

comprises a total content of solid particles of less than or equal to 20% by weight.

relative to the total weight of the composition.

-20-

Attorney Docket No.: 05725.1339-00000

176. (Previously Presented) The composition of claim 175, wherein said solid

particles are chosen from pulverulent dyestuffs, polymethylmethacrylate particles, and

additional fillers.

177. (Previously Presented) The composition of claim 175, wherein the total content

of pulverulent dyestuffs, poly methyl methacrylate particles, and additional fillers ranges

from 15% to 20% by weight relative to the total weight of the composition.

178. (Previously Presented) The composition of claim 80, wherein the composition

comprises an oil thickener.

179. (Previously Presented) The composition of claim 178, wherein the oil thickener

is chosen from organomodified clays and hydrophobic fumed silica.

180. (Previously Presented) The composition of claim 178, wherein the oil thickener

is present in the composition in an amount ranging from 0.1% to 5% by weight, relative

to the total weight of the composition.

181. (Currently Amended) the composition of claim 180, wherein the oil thickener is

present in the composition in an amount ranging from 0.4% to 3% by weight, relative to

the total weight of the composition.

-21-

Attorney Docket No.: 05725.1339-00000

182. (Previously Presented) The composition of claim 80, further comprising at least one additive chosen from gelling agents; hydrophilic or lipophilic thickeners and moisturizers; emollients; hydrophilic or lipophilic active agents; free-radical scavengers; sequestering agents; antioxidants; preserving agents; acidifying or basifying agents; fragrances; film-forming agents; soluble dyes; and mixtures thereof.

- 183. (Previously Presented) The composition of claim 80, wherein the viscosity of the composition ranges from 0.25 to 0.5 Pa.s, when measured at 25oC and at a shear rate of 200 s-1.
- 184. (Previously Presented) The composition of claim 183, wherein the viscosity of the composition ranges from 0.3 to 0.45 Pa.s, when measured at 25oC and at a shear rate of 200 s-1.
- 185. (Previously Presented) A nontherapeutic cosmetic process for making up the skin, comprising:

applying to the skin a foundation composition in the form of a water-in-oil emulsion, said foundation composition comprising at least one oil, an aqueous phase containing water, at least 6% by weight of water miscible polyol relative to the total weight of the composition, and at least 8% by weight of dyestuff, wherein the water, the polyol, and the oil are present in an amount such that the weight ratio of (water + polyol) to oil is greater than or equal to 0.8.

Attorney Docket No.: 05725.1339-00000

186. (Previously Presented) The nontherapeutic cosmetic process of claim 185, wherein the foundation composition is applied to obtain a uniform and/or mark-free makeup result on the skin.
